INNOVance, piattaforma digitale

alberto pavan

The screenshot displays the INNOVance BIM Platform website. The top navigation bar includes a search field, links for 'CHI SIAMO', 'DB INNOVANCE', 'CONTATTACI', and 'NEWS', social media icons, and a login button labeled 'Accedi'. The main banner features the INNOVance logo and the text 'EMBODIED ENERGY' and 'BIM PLATFORM' over an image of hands holding a glowing lightbulb. A left sidebar lists navigation options: BIM LIBRARY, BIM SERVER, RICERCA, DOCUMENTI E LINK, GESTIONE COMMESSA, LESSICO SPECIALISTICO, and ULTIME NEWS. The central content area is divided into two columns. The left column contains four categories: PRODOTTI (with a hammer and wrench icon), OGGETTI (with a house icon), PROCESSI (with a gear icon), and AZIENDE E PROFESSIONISTI (with a building icon). The right column displays two 'BIM Library' sections. The first section, 'Sistema Assemblato (10)', lists two types of 'Solaio - Solaio' with their respective codes and download links for RVT, IFC, and SCHEDA. The second section, 'Prodotto da Costruzione (11)', lists two types of 'Elemento per muratura - ALVEOLATER BIO TAURUS 30' and 'Elemento per muratura - ALVEOLATER 30 incastro h 24,5', also with codes and download links. To the right of the main content, there are three 3D architectural models: a stepped wall section, a cross-section of a wall, and a technical drawing titled 'SCHEMA TECNICA' showing a brick wall detail with various annotations and a CE mark.
